Baltimore, MD

Re: Brian Knighton

To Whom It May Concern:

In regards to Mr. Brian Knighton and his participation with in the WWE Former Talent Rehab program. Brian was sent to the Hanley Recovery Center in West Palm Beach, FL on November 9, 2009. Brian worked diligently and compliantly with the Hanley Recovery program for drugs and alcohol. He completed their program on December 7, 2009, which he received high praises from the Hanley staff.

I oversee the WWE Former Talent Rehab program which has been in place since September 2007, sending over 25 Former Talent through a treatment facility. Our program assists any Talent, who had a contract with the World Wrestling Entertainment, Inc., for Drug and Alcohol rehab if they so choose. Within our program, once a participant completes the Treatment Program they attend an out patient program as well as I call them on a weekly basis for an update on their progress.

Since Mr. Brian's departure from the Hanley Center, he has called me several times each week to check in. He is successful with his post care treatment by attending meetings and complying with house rules. He has also successfully secured a job, a requirement from his housing manager.

We are very pleased with Brian's progress and dedication to our program

Regards,

Ann Russo-Gordon
Manager, Talent Relations Department
